

ART-NATURALLY!

TEACHER'S NOTES

ART - NATURALLY TEACHER'S NOTES

The garden is a source of inspiration with a motivational landscape to produce creative and imaginative art and craft.

Designed to be used as a focussed art day or to complement other programmes. Create a varied and enjoyable programme for your visit by contrasting or extending activities.

The idea is that, apart from bringing a sketch book, resources are free and available within the gardens. Art works can be created, photographed and left in the garden without the problem of transporting artwork back to school.

Good for :

Skills - observational sketching, construction , sculpture and collage.

Concepts - colour, form, texture, shape, space and pattern.

Links - e.g.mask design, style of artists, other cultures.

A varied collection of art and craft ideas using natural materials from the gardens. Ideal for individual, partner or group work.

Please send copies of your artwork to VBG for display.
